

Perfect Wellness Launches World-Class Physiotherapy Wing

Perfect Wellness, Faridabad's reputed healthcare company that has been associated with the delivery of high-quality medical care in Ophthalmology, Optical and Dentistry since the past 7 years, now launches Physiotherapy, its latest service offering.

Physiotherapy is an often-needed but much-ignored medical service. It includes examination, treatment, advice and instructions to any person suffering from movement dysfunction, bodily malfunction, physical disorder, disability, healing and pain as a result of trauma, disease, surgery, aging process, mental conditions and many environmental factors. Core skills used by our physiotherapy doctors include manual therapy, therapeutic exercise and the application of electro physical modalities. While treating their patients, they take note of psychological, cultural and social factors which influence their patients. Physiotherapy has been identified as a key factor in maximizing patients' general functional recovery, regaining the physical strength, endurance, psychological confidence and improving the quality of life and dignified living. These specialized services are not offered by any other professional of the primary health

care team. And therefore become an essential component in patient recovery throughout the healthcare continuum, from acute to sub-acute conditions, palliative and extended care and outpatient services. Used in conjunction with most medical or surgical management, Physiotherapy complements these procedures to help provide a speedy and complication-free return to full rehabilitation to

daily activity. Contrary to the popular belief that these services are rendered only with or following orthopedic treatment, Physiotherapy services cover a very large span of illnesses, such as Musculoskeletal Problems, Sports injuries, Strokes and other Neurological conditions, Pre & Post-operative discomfort, Congenital & developmental problems and lifestyle-related conditions, which are

increasingly on the rise due to sedentary jobs.

Having proven its expertise by providing best-in-class treatment in Eye Care and Dental Care to its patrons over the years, Perfect Wellness intends to lay the same benchmarks of excellence here too. Reinforcing the concept of Preventive Care which forms one of the core beliefs of the company, the Physiotherapy unit at Perfect Wellness is fitted with the latest infrastructure and equipment. It is fully operational at both the flagship unit at Faridabad as well as at the company's branch at Paschim Vihar, New Delhi.

Ankit Agarwal, MD & CEO, Fx Group, maintains that it has been a constant endeavor of the organization to excel, not just in medical services, but also in providing exemplary

customer service. Attributing the addition of this service to the 2 lac + patrons' trust over the years, he asserts that Perfect Wellness would strive to live up to the standards that are today synonymous with it.
